

# HOW MANY MORE BABIES WILL DIE

**...IN YOUR NAME??**

Since 1997, Irish Health Boards have brought at least FIVE Irish babies to their death in England. And your taxes are paying for it. Isn't it about time we stopped the killing. And time Michael Martin stopped forcing YOU to pay for it.

# IRISH HEALTH BOARDS ARE USING YOUR TAXES TO HAVE BABIES ABORTED IN ENGLAND

In December of 2003, the Midland Health Board brought a 13 year old girl, who had become pregnant in their care, to England for an abortion. Her unborn baby was 22 weeks old at that time - old enough to have survived outside the womb, but helpless to protect himself against an English abortionist.

**THIS IS AN OUTRAGE.** What kind of care is the Health Board providing which allows a 13-year-old girl to become pregnant? Was this young girl informed as to the serious physical and psychological threats to her health from abortion? Was she told that her baby was a fully developed human being - a unique and precious individual?

But this is not, of course, the first time that this has happened. Beginning with 'Baby C' in 1997, the health boards have set about establishing their right to bring young girls in their care to have their babies murdered in England.

**AND YOUR TAXES ARE PAYING FOR IT!**

Abortion kills babies and harms mothers. And the Irish Constitution obliges the State to protect unborn babies. Instead, they're arranging to have them killed in England.

**IT'S TIME TO SPEAK OUT! As Minister for Health , Michael Martin has responsibility for each baby's death and the power to stop the killing.**

## **WHAT YOU CAN DO:**

- 1.** Phone Michael Martin's office on 021 4320088 or 01 6354000 and tell him you are absolutely opposed to the Health Boards arranging for the abortion of Irish babies
- 2.** Tell him he will **not** get your vote if he does not stop the killing.
- 3.** Get your neighbours to do the same. Distribute more of these leaflets.

60a Capel Street, Dublin 1
